

ARCHITECTURAL RAILING SYSTEMS

ARCHITECTURAL ORNAMENTAL | M-SERIES ALUMINUM RAILING | COMMERCIAL | RESIDENTIAL

Alumina Railing Products, Inc. is a leading developer, fabricator, and installer of high-quality railing products for commercial, multi-family, and residential applications. We offer a wide range of customizable options, including architectural ornamental railings and our versatile M-Series Aluminum Railing Systems. We invite you to partner with us to explore how our superior railing products and expert installation services can enhance your projects.

DESIGN-BUILT RAILING SOLUTIONS FOR COMMERCIAL AND RESIDENTIAL PROJECTS

Alumina Railing designs and manufactures custom railing systems tailored to the specific needs of architects, designers, and construction professionals. We specialize in design-built railing solutions for commercial and residential uses. We offer a range of options, from economical standard systems to fully customized designs that meet your project requirements and budget.

STYLE MEETS FUNCTIONALITY WITH THE M-SERIES ALUMINUM RAILING SYSTEM

Alumina's M-Series Aluminum Railing System perfectly combines design, functionality, and affordability, making it suitable for both commercial and residential applications. Architects, contractors, and developers trust Alumina's M-Series railing systems for use in apartments, condominiums, and various projects. Our contemporary exterior railing systems enhance safety while ensuring compliance with building codes. The M-Series, custom-manufactured from extruded aluminum components, is engineered for durability and long-term structural integrity. Its sleek profile and high-quality finishes enhance architectural aesthetics while requiring minimal maintenance.

YOUR DIRECT SOURCE FOR QUALITY RAILINGS AND EXPERT INSTALLATION

Design your project confidently with our qualified and experienced team. We provide design assistance while our project managers ensure a smooth experience. Our professional installation crew works closely with you to make your project effortless.

SECTION 057300 - DECORATIVE METAL RAILINGS

Since 1993, Alumina Railing Products has provided superior craftsmanship and quality for commercial, industrial, multifamily, and residential projects. As an industry leader, we offer all the professional services necessary for your project's development, production, and installation.

Alumina Railing is committed to providing high-quality products and exceptional craftsmanship, backed by our highly skilled manufacturing and design teams. Our extensive professional services and expertise allow us to consistently exceed client expectations. With a strong commitment to excellence and in-depth industry knowledge, we not only meet but also redefine the standards of quality and service in our field.

INNOVATION AT WORK

We are dedicated to delivering outstanding customer experience by continually meeting our commitments. Our manufacturing and powder coating facilities use state-of-the-art technology. By managing both fabrication and powder coating in-house, we improve control over scheduling and product quality. This approach instills greater confidence in our customers in the products they receive.

OUR VALUES

We are committed to providing high-quality products and excellent railing installation services. Our skilled professionals bring your visions to life with precision and care. We strive for outstanding customer service, connecting closely with our clients to ensure their unique needs are met at every stage of the project. Our focus is on enhancing both safety and beauty. We recognize our skilled employees' vital role in this process and are dedicated to continuously improving their work environment to promote their development and success.
